

A warm, candlelit dining table with pink dahlias and people in the background. The scene is dimly lit, with the primary light source being several lit candles. In the foreground, a tall, thin pink candle sits in a brass candlestick, and a shorter, wider pink candle is lit. A vase of pink dahlias is the centerpiece. The table is set with various glasses, including a champagne flute, and bottles of wine and beer. In the background, people are seated at the table, their faces softly blurred, creating a sense of a lively yet intimate gathering.
